**WMRF FM MUSIC 96**
**WIEZ AM OLDIES 670**

MIFFLIN COUNTY BROADCASTING COMPANY

January 20, 1988

Mr. Bill Burrows
709 Division Street
Gloucester City, NJ 08030

Dear Bill:

Thank you for your recent reception report of WIEZ-670. This letter will confirm your reception of WIEZ on 8/23/88 from 7:38 - 7:49 PM.

Now, to answer your questions: WIEZ began operating on 670 Khz, with 5.4 KW in June, 1988. Previously, we operated (since 1941) on 1490 with 1 KW fulltime. We are licensed as a daytime-only station, however we are also authorzed to operate from 30- to 45-minutes following local sunset, depending on the month, with approximately 30 watts. Admittedly, a dumb move to drop power, but it is required. We use a 420' tower as our antenna, which is also used to support the antenna for WMRF-FM. Our transmitter is a Harris SX-5A with Orban processing. Most of our reception reports have been in the northeast U.S. to date, however we have only been on the air since June, so I expect more to come in over the winter months. We are an ABC Affiliate, and our format is Oldies. WIEZ is fully automated, and watched by our live humans at WMRF-FM.

Again, thanks for the report.

Sincerely,

David N. Supplee
Chief Engineer
